Using the Mobility of LNG for Business Transformation

David Hill, Vice-President Operations
Encana Natural Gas Inc.
Houston, TX | April 18 | 2013
Many industries are already making the switch to natural gas.
Significant benefits can be delivered through a flexible solution.
Traditional vs. Mobile Fueling Solutions

Station Fueling

Mobile Fueling

Regasification Fueling
Encana Natural Gas Inc. offers a complete suite of customer oriented fit-for-purpose liquefied natural gas (LNG) and compressed natural gas (CNG) fueling solutions to a variety of industries. We have a vision of a future fueled by domestically produced, abundant, affordable and cleaner natural gas.

ENGI Fit-for-Purpose

Mobile Solutions

- Direct to Tender Car
- Direct to Mining Hauler
- Direct to Ship
- Dockside Fueling
- Direct to Truck
- Dual-fuel Dedicated
- LDC Service Disruption
- Emergency Power
ENGI MOBILE FUELING SOLUTION

- **LNG Onboard**
  - 5,100 or 15,000 gallons
- **Fuel Dispensing**
  - 24-hour access
  - Total fueling time is less than 5 minutes
- **Ease of Use**
  - LNG powered generator or shore power
  - Footprint 53’ x 8.5’; 11’ ¾” H
  - Remote monitoring
- **Safety Features**
  - Methane and fire detection with horn and beacon
  - Emergency shut down buttons
  - USDOT and Transport Canada compliant
- **Credit cards accepted**
The MFS: “How Stuff Works”
• All-weather design
• 60% reduction in footprint
• Fully integrated safety system
• Active pressure management prevents venting
• Remote monitoring
• 13,500 gallons storage
• 31,500 scfh vaporization rate (~9,225 LNG/day)
• Requires 177 kW power and instrument air
• 140 psi MAWP
The RFS: “How Stuff Works”

Ties Between:
1. Low-Pressure Gas Line
2. Power
3. Instrument Air Supply
4. Communications Line
5. Vent Line
- 24-hours a day, 7 days a week
- Remote monitoring
- One phone number on-call system
- Preventative and regular maintenance management
- Automated alarms
- Daily reporting:

OPERATIONS CENTER
We are a full turn-key fueling solution provider. Our mobility can help you get started and be a long-term solution.
